Jack A. Wilson
COMMISSIONER
FRANKFORT, KENTUCKY 40601

MEMORANDUM

TO: Robert E. Blanz, Director
Division of Water Quality

FROM: Jack A. Wilson, Commissioner
Bureau of Environmental Protection

DATE: July 9, 1980

SUBJECT: Valley of the Drums Treatment System

RECEIVED

JUL 11 1980

DIV. OF HAZARDOUS MATERIAL
AND WASTE MANAGEMENT

In the course of recent discussions with Warren Peace of your Division and Art Curtis, of HMWM, it has become clear to me that we do not have a solid maintenance program for that treatment system. Since your division is the treatment system expert of the Bureau, I request that you work in conjunction with HMWM in developing such a strategy including estimated costs.

Secondly, I believe it is prudent that we look down the road at possible long term responsibility for operation and maintenance of this treatment system or the installation of a different one at that site. Therefore, I request that the Division begin to develop with cost estimates a plan which could be implemented for maintaining a treatment system at that site from 2 to 10 years. Please keep me advised as to your progress.

ART CURTIS

Stay with this and insure that
a maintenance program is developed.
Keep me posted.
